

# GEORGE'S WISH

2016 To have my own happy space!

George 17, is a joyful and wonderful young man. He suffers from Hirschsprung disease, epilepsy and he has autism. Despite his health challenges and being non-verbal, George is very enthusiastic, kind hearted and fun to be around. He likes people's company. George enjoys listening to music, playing in a ball pit but most of all he loves watching the Teletubbies.

George's most cherished wish was to have his own happy space. A comfortable place where he could enjoy his favorite past time on his own or with his family. With the help of several volunteers including Fluxworx (metal work) George's special wish came true. George was so happy! He loves his new room and his new ball pit. His mom is very grateful to everyone that made George's wish come true.

A very special thank you to all  
**Agents Of Change** with  
**Playing It Forward for Wishes**  
for adopting **George's** wish!
