

# TANNER'S WISH

## 2016 To go to Disney World!

---

Tanner is a wonderful 13 year old boy who enjoys playing football and video games. He loves riding his go kart, spending time at home with friends. Tanner was diagnosed at birth with a genetic disorder called Apert Syndrome.

Tanner's most cherished wish was to go to Disney World with his family. This wish was important for him because he was excited to experience his first flight, go on all the rides and see the Finding Nemo characters. On February 13th, the magic began when Tanner and his family were flown to Orlando, Florida to spend an amazing week at Give Kids the World Village.

The family stated: "We couldn't be more grateful to Make-A-Wish for the most amazing wish! We all had a great time and just loved Give Kids the World. They are truly amazing people. We hope to pay it forward someday and volunteer at the village.

A very special thank you to all
